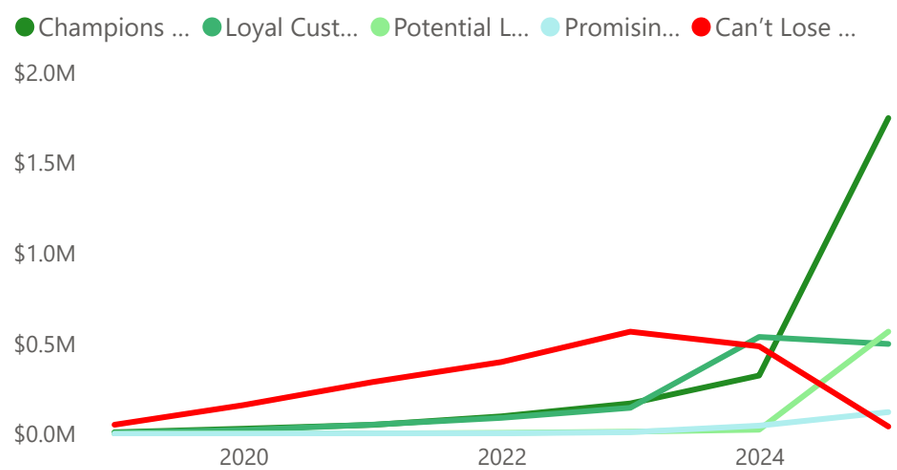
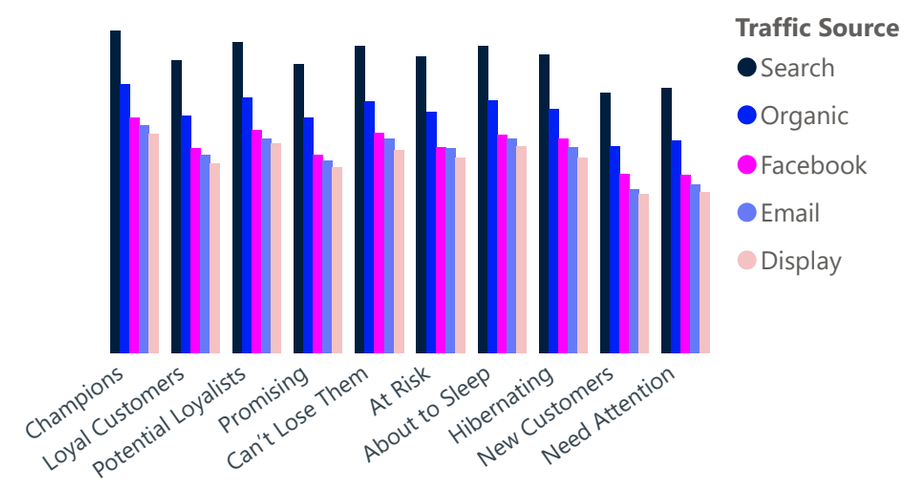
High-Value Customer Revenue Contribution



Segment Breakdown by Traffic Source



TheLook E-Commerce: RFM Customer Segmentation Analysis

Insights and Recommendations

- **Champions** 19% of customers generate 34% of total revenue with high average spend ($219), they are the most valuable group. Reward them with exclusive perks (early access to sales, VIP loyalty tiers).
- **Loyal Customers** generate 15% of total revenue with high frequency and highest average spend ($221). Upsell/cross-sell with personalized product recommendations. Provide tiered rewards or exclusive content to move them toward Champion status.
- **Potential Loyalists** generate 8.7% percent of total revenue. Nurture with targeted offers on best-sellers or related categories. Send automated follow-up campaigns highlighting benefits of repeat purchases.
- **Can't Lose Them** contribute 22% of revenue with strong historical value but low recency—urgent retention focus needed. Prevent churn through proactive outreach.
- **Need Attention** with 3.8% of total customer generate 3.2% of total revenue. Re-engage with reminders of past activity and personalized suggestions. Offer limited-time discounts tied to browsing/purchase history.
- **New Customers** and **Promising** show recent engagement but low frequency—prime targets for conversion to loyal segments.
- **Hibernating/About to Sleep/At Risk** together represent 31% of customers but only 14% of revenue—opportunity for win-back campaigns.
